CUSTOMER: Manufacturing Company

PROJECT DATES: Various projects since 2011

PROJECT VALUES: up to £100K

PROJECT DETAILS

Prestige have been working with this manufacturing company for the past 6 years. The projects vary in size from smaller works to larger projects up to £100,000.

Our works have included:-

Installing new car park lighting

Installing new cable management, distribution and lighting systems to five factories

Installing new power to workshop

Installing new submains and distribution boards and panels

Installing a new lighting system to executive areas

Carrying out a full refurbishment of the Directors offices

Carrying out a reorganisation and refurbishment of one of the floors of the client's factory

Carrying out a refurbishment of the existing staff welfare facilities within our client's offices and factories, the works involved stripping out existing toilets and installing new cubicles and vanity units

CLIENT STATEMENT

Prestige have confidently managed the above works working closely with our client to prevent any production delays.
