PROJECT VALUE: £5.5K

PROJECT DETAILS

Jazz FM are a radio station based in the West End playing jazz, blues and soul. Jazz FM refer to their sound as 'Listen in Colour'.

Prestige installed a new dry lined wall behind their server cabinets and redecorated sections of their offices following flood damage.

This was our first project for Jazz FM.

CLIENT STATEMENT

I wanted to put in writing my thanks to you and the team. You and your guys did an excellent job and you made it straightforward to keep the radio station running, and your flexibility with others of my staff made it a very positive experience.

Kind regards,

Alistair
