PROJECT DATES: August 2016

PROJECT VALUE: £7K

PROJECT DETAILS Decoration of Main Hall

Prestige have carried out work at several local schools and colleges and also work with education establishments in London and the South East. Some of this work consists of one off projects, however we also work for several schools and colleges on a more regular basis, carrying out projects of varying sizes and complexity.

We were contacted by an 11-16 Academy to carry out some refurbishments works over the 2016 Summer Break. The work consisted of updating and refreshing the school's Main Hall. The walls and ceilings were repainted, together with the paintwork and radiators, making the Hall a more welcoming space for pupils, staff and visitors. The work was carried out over a two week period during August whilst the school was closed for the 2016 Summer Holiday.
